Description

Rodent Bait Station Plastic Body Rust Proof | Anti-Rust Bait Station Tough Plastic Box Durable in All Weather| Mouse Trap, Roda Box, Rat Bait Station | Professional & Home Usage

Made of High Grade Plastic, Rat Bait Stations withstand the toughest baiting situations indoors and outdoors. Since rats are otherwise difficult to catch, these baits come in handy for the same purpose. A bait station is not a trap. It is a device that protects children, dogs, and cats from accidental poisoning by preventing them from meeting the rodent bait black/ Rat Glue Trap. Their usage keeps your premise (home, offices, warehouse, etc) free from rats and prevents the damage caused by them. These Bait Station is ideal for perimeter baiting and can be attached to a permanent structure or staked to the ground for added security. It locks with a locking mechanism for safer usage.

- Bait stations are used to contain rodenticide in a tamper-proof enclosure. Pest Shields Rat bait stations can be used both indoors and outdoors, Pest Shields Rat Bait Station designed specifically for either indoor or outdoor use.
- "Child & Pet Resistant" bait stations offer consumers the highest level of tamper resistance for both children and pets. These products can also be used indoors or outdoors.
- Bait stations are built to be tamper-proof, especially outdoor units, meaning that they are resistant to vandalism, inquisitive children and non-target animals.
- Heavy duty Mouse Glue trap box With Ground Wall fixing arrangement Mouse Trap Rodent Box No poison that is extremely safe for child Good for Environment and Economical and reusable.
