

Total Pest Management for a safer environment

K-Othrine flow is a residual spray for effective control of cockroaches, house flies and mosquitoes.

- ✓ Broad spectrum activity
- ✓ No odour and no stains
- ✓ Endorsed by HACCP International

An odourless and stain free solution for general pest control in residential and commercial premises.

Active Ingredient:

Deltamethrin 2.5% SC

Recommendations for use:

K-Othrine Flow is used for effective control of cockroaches, house flies and mosquitoes in houses as a residual spray on surfaces and for bed net impregnation to protect against adult mosquitoes.

Key features and benefits:

Effective at low dosages

Odourless formulation

Broad spectrum activity

HACCP International Certified

Non-greasy, non-staining

Mode of Action:

K-Othrine Flow acts on insect by contact and ingestion. In both cases lipophilic nature promotes its action. In the insect body, it affects the nerve transmission by acting on axon. It has knockdown effect.

Dosage:

For residual spray, dilute 10 ml of K-Othrine Flow in 1 litre of water to cover 10-20 sq. mt. of area. For bed net impregnation, use 1 ml of K-Othrine Flow per sq. mt. of the bed net area.

Antidote:

Anti histamines, diazepam and other symptomatic treatment

Packs:

1 lt.

Always read and follow label instructions.
