

Maxforce Quantum: India's first ant gel to put a full stop to indoor and outdoor ant infestations

Maxforce Quantum is a liquid ant bait that uses the active ingredient imidacloprid to control most common ant species in residential and commercial premises.

- ✓ Excellent efficacy against multiple ant species
- ✓ Low dose and target specific
- ✓ Easy to apply in minimal time
- ✓ Fast in action
- ✓ HACCP International Certified

An effective gel bait against multiple ant species.

Active Ingredient:

Imidacloprid 0.03% Gel

Recommendations for use:

Maxforce Quantum is a household insecticide recommended for the control of pestiferous ants viz. pharaoh ant (*Monomorium pharaonis*), small black ant (*Monomorium indicum*), ghost ant (*Tapinoma melanocephalum*) and crazy ant (*Paratrechina longicornis*) commonly found in the food handling, processing or storage areas of household and commercial premises

Key features and benefits:

Excellent efficacy

Low dose and target specific

Easy to apply

Inconspicuous treatment

Fast acting

HACCP International Certified

Mode of Action:

Imidacloprid is antagonist to the nicotinic acetyl choline receptor in the central nervous system. It disturbs the proper signal transmission system leading to excitation of nerve cell. Consequently a disorder of the nervous system occurs leading finally to the death of the treated insect.

Dosage:

For low infestation - One spot of 0.2 gr/ m² of infested area.

For moderate to high infestation - One spot of 0.3 gr/ m² of infested area.

Antidote:

Specific antidote not known, Treat symptomatically

Packs:

30 gm

Always read and follow label instructions.
